NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: Halloween treat bags often provide enough goodies for two to three weeks—so why not make those treats last by planning what treats to eat when. Enjoying Halloween treats is a special thrill for kids, but overdoing it on the candy can be uncomfortable. To help your kids enjoy the event, not feel sick, and establish life-long habits for dealing with favorite foods, try a few tips:

- Let your kids pick out a few favorite candies to savor each day,
- Ration candy into weekly amounts—when it's all gone they need to wait,
- Freeze large amounts of perishable candy so that portion control is easier,
- Teach kids to eat candy after their meals instead of between meals,
- Help kids balance high-calorie chocolates with lower calorie hard or sugar candies.

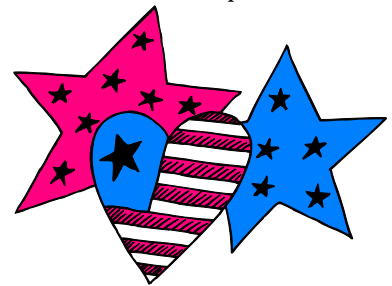

In addition to portioning the treats, remind kids—big and little—that sweets sit at the top of the pyramid and fit in after all the other food groups. Adding some sweets to a daily meal plan can help with variety and keep you on track to healthful eating. You won't be scared of poor nutrition if you plan wisely. So enjoy the flavor and fun of Halloween healthfully. (TA-C2)

Although emphasis is placed on major procurement fraud, (particularly allegations of defective/substandard parts, mischarging, kickbacks, bid rigging, and research fraud), investigations are also conducted of theft, conflict of interest, environmental and hazardous waste violations, health care fraud, and computer related crimes. OCI also provides fraud briefings for Government and contractor employees that are designed to highlight potential risks concerning fraud and related matters. This includes employees who retire and are not eligible to continue FEHB coverage as annuitants. Children who become age 22 and ex-spouses may continue coverage for up to 36 months provided they had coverage under a Federal employee at the time of the event.
